

Hi Julie,

I'd like to take the opportunity to write you a formal testimony for your great services you have provided me with.

I have had several accountants in the past years – all of them did a good job, but what I truly appreciate about you and Cummings West is that you go beyond "doing your job".

You have an amazing wealth of knowledge that goes well beyond accounting. The most comforting fact for me is though, that I feel you genuinely care about helping me get the most out of my tax and financial related matters.

Thanks again and be sure that I will be sending you my family and friends who are looking at improving their tax and financial situation.

Best regards

Florian Stotz
